Media Release

Title: The grandest of openings for Macquarie Home Stay's new guesthouse

Macquarie Home Stay (MHS) is celebrating with the official opening of their CWA of NSW Guesthouse facility. The 26 room facility provides accommodation for people living in central and far western NSW who travel to Dubbo for medical treatment, and in particular people receiving treatment at the Western Cancer Centre. People from over 50 percent of the geographical area of NSW travel to Dubbo for medical treatment every year.

The enormous undertaking would not have been possible without the generosity of community members, groups and individuals from far and wide who have fundraised to make the new 26 room facility a reality. Hundreds of regional people are already benefiting from the new guesthouse facility including some of the most vulnerable and sick people who are undergoing cancer treatment at Western Cancer Centre here in Dubbo.
